PAL MELAMINAT ȘI BLATURI DE LUCRU MFC AND WORKTOPS

VISION 2016

TTECHNOTOP
WORKTOPS

NEOTOP
WORKTOPS

Kastamonu Romania produce PAL melaminat pe formatul standard 2800 x 2070 mm într-o varietate de grosimi de la 8 mm la 38 mm. Plăcile de PAL melaminat sunt realizate din plăci de PAL brut ale căror suprafețe sunt acoperite cu hârtie decor impregnată cu rășini melaminice, prin presare în anumite condiții de temperatură și presiune.

Fabrica de PAL care funcționează pe platforma Kastamonu Romania este compusă dintr-o linie de producție pentru PAL brut cu o capacitate de 500.000 de mc pe an, o linie de impregnare a hârtiei de decor (50.000.000 mp/an) și două linii de melaminare (20.000.000 mp/an).

Colecția de decoruri VISION conține 120 de decoruri din categoriile lemn, uni și fantezie, disponibile în 7 structuri diferite. Kastamonu Romania propune o gamă de decoruri echilibrată, adaptată cerințelor actuale, care este completată în fiecare an în concordanță cu tendințele pieței.

Kastamonu Romania manufactures melamine-faced chipboard with the standard size of 2800 x 2070 mm in a variety of thicknesses from 8 mm to 38 mm. The boards are made from raw chipboard whose surfaces are coated with melamine resin impregnated decorative paper, which is pressed in specific conditions of temperature and pressure.

The chipboard factory on the Kastamonu Romania platform is composed of a raw chipboard production line with a capacity of 500,000 cbm per year, a decor paper impregnation line (50,000,000 sqm/year) and two melaminizing lines (20,000,000 sqm/year).

The VISION decors collection contains 120 decors in the wood, uni and fantasy categories, available in 7 different structures. Kastamonu Romania is proposing a balanced range of decors, adapted to current requests, which is completed each year in order to be in line with market trends.

Blaturile Technotop, realizate începând cu anul 2014 în urma unei investiții de cca. 8 milioane de euro în noua linie de producție, sunt confecționate din plăci de PAL ale căror suprafețe sunt acoperite cu laminat, prin presare și termoformare. Produsele sunt soluția ideală pentru amenajări inspirate ale spațiilor de locuit, atât din considerente estetice cât și funcționale. Sunt recomandate pentru întrebuințări multiple, atât în bucătărie cât și în alte zone, pentru amenajări care implică suprafețe cu proprietăți specifice de rezistență și durabilitate.

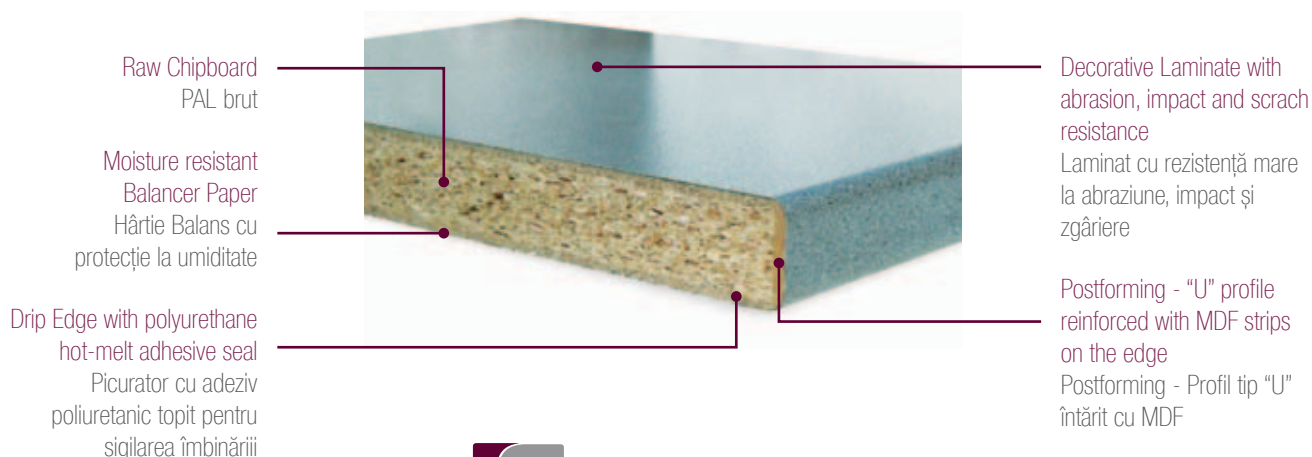

Produsul corespunde celor mai exigente standarde de calitate, fapt susținut atât prin procesul elaborat de fabricație cât și prin natura elementelor componente: laminate cu rezistență mare la uzura și durabilitate, postforming cu profil întărit cu MDF, picurător din poliuretan topit pentru sigilarea îmbinării, hârtie balans cu protecție la umiditate, marginea din spate acoperită cu cant PVC.

Colecția Technotop conține în prezent 60 de decoruri din categoriile Lemn, Uni și Fantezie și oferă o multitudine de opțiuni, clasice dar și moderne, în ton cu tendințele actuale în design interior și amenajări.

The Technotop worktops, manufactured since 2014 as a result of an investment of approx. 8 million euros in a new production line, are made from raw chipboard boards whose surfaces are covered with laminate by pressing and thermoforming. The product is the ideal solution for inspired decoration of living spaces, both for aesthetic and functional reasons. The Technotop worktops are recommended for multiple uses, both in the kitchen and in other areas, for arrangements involving surfaces with specific properties of strength and durability.

The product meets the highest standards of quality, which is supported by both the complex manufacturing process and the nature of the components: decorative laminates with high resistance to wear and durability, postforming profile reinforced with MDF strips, drip edge with polyurethane hot-melt adhesive seal, moisture resistant balance paper, back edge covered with PVC edge.

The Technotop collection contains at the moment 60 decors in the wood, uni and fantasy categories and offers a multitude of options, classic but also modern, according to current trends in interior design and furnishings.

TECHNOTOP
WORKTOPS

A modern kitchen featuring dark wood cabinetry, stainless steel appliances including a microwave, oven, and a large range hood. A central island with a dark countertop and a built-in gas cooktop is prominent. The background shows a dining area with a dark wooden cabinet and a large, ornate mirror. The floor is made of light-colored tiles.

NEOTOP

BLATURI DE LUCRU

Gama de blaturi NEOTOP reprezintă varianta economică a blaturilor de lucru produse de Kastamonu Romania, oferind producătorilor de mobilier un produs de calitate, la un preț accesibil.

Blaturile de lucru NEOTOP sunt fabricate utilizând materiale și tehnologie de ultimă generație.

Astfel, suprafața blatului este acoperită cu un laminat cu rezistență sporită la abraziune și durabilitate, iar partea inferioară este acoperită cu hârtie balans cu protecție la umiditate. Postformingul este de tip „U”, cu raza de 6 mm și este prevăzut cu picurător din adeziv poliuretan topit care sigilează îmbinarea, sporind astfel rezistența la umiditate și la acțiunea vaporilor de apă.

La ambalare, câte 14 bucăți de blaturi sunt așezate pe traverse din lemn, fiind protejate la bază cu o placă de PAL brut iar în partea superioară cu placă de PAL brut și carton. Legăturile sunt realizate cu benzi de plastic.

Colecția de debut cuprinde 10 decoruri, din categoriile Lemn, Uni și Fantezie, cu finisaje atât mate (PS51 și PS52), cât și lucioase (PS80). Dimensiunile standard sunt: 4100 mm lungime, 600 mm lățime și 28 mm grosime.

Blaturile de lucru NEOTOP sunt recomandate pentru utilizări multiple – baie, bucătărie, spații de lucru și reprezintă o alternativă excelentă atât pentru suprafețele naturale cât și pentru produsele premium.

The NEOTOP product range represents the economical alternative for the worktops produced by Kastamonu Romania, offering to the furniture manufacturers a quality product at an affordable price.

The NEOTOP worktops are made using the latest materials and technology.

Thus, the top surface is covered with decorative laminate with resistance to wear and durability, and the bottom is covered with moisture resistant balance paper. The postforming profile is “U” type, with 6 mm radius and with a drip edge with polyurethane hot-melt adhesive seal, to increase the resistance to humidity and water vapor action.

In the packing process, 14 pieces of worktops are placed on wooden beams, the base being protected by a plate of raw chipboard and the upper side with raw chipboard and cardboard. The bindings are made with plastic strips.

The debut collection contains 10 decors in Wood, Uni and Fantasy categories, both matt (PS51 and PS52) and glossy finish (PS80). The standard dimensions are: 4100 mm length, 600 mm width and 28 mm thickness.

The NEOTOP worktops are suitable for multiple uses - bathroom, kitchen, other workspaces and are a great alternative for both premium products and natural surfaces.

NOU!
